

StraightWall Acoustic Partition Wall-Mountable (Fabric)

Option to mix 'n' match fabric & polycarbonate panels

Product Features

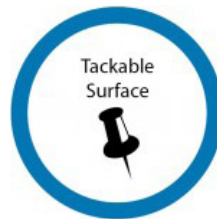

Expands in
Straight Line

Each partition panel stacks and slides behind one another to create a straight line partition configuration of any exact length up to 5.96m.

Sound
Dampening

Engineered acoustic panels manufactured from a honeycomb cell core, fibreglass sheets on both sides and specialist acoustic fabric for superior acoustic performance.

Tackable
Surface

Fully tackable surface accepts pins and Velcro for posting artwork or signage allowing you to create your own mobile gallery or display board.

Customisable

Mix and match fabric colours and finishes (fabric and polycarbonate) to create your own unique product. Company logos and artwork can also be printed directly onto panels.

Easy Storage

When not in use, collapses down to 85cm x 85cm footprint and stored against wall.

Safety First

Extra partition stability is created via full panel end members. No-pinch seams between each panel reduces the possibility of fingers getting pinched.

Fully Assembled

Ships ships fully assembled. Simply unbox, roll into place and attach to wall via support bracket (supplied).

Manufactured in
Australia

Manufactured and assembled in our Sydney factory ensuring the highest quality.

Room divider fully extended from wall in straight line

Fully closed room divider folded flat against wall using pivot bracket

View from above of fully folded and stacked room divider placed against wall

Fully closed room divider showing leading perpendicular end panel

Partially opened room divider using telescoping mechanism

Product Description

- High quality wall-mountable acoustic sliding partition that helps you maximize the use of your current space
- Available in four lengths 2.18m / 3.43m / 4.72m / 5.96m and three heights 1.83m / 2.02m / 2.29m.
- This semi-permanent sliding partition allows for maximum sturdiness and can open to any exact length.
- Simple wall mounting bracket that can be assembled within a few minutes.
- Fibreglass panel construction offers enhanced, superior acoustics.
- Features a full panel end member, which increases acoustical properties by trapping sound and ensure maximum partition stability. This feature also eliminates any tripping hazard.
- A second detached end-member is also supplied should you wish to de-mount the room divider from the wall and use as a standard sliding portable partition. Simply wheel into another room for use elsewhere.
- The frame of the partition is constructed of extruded aluminum profiles joined with cast aluminum corners joints for light weight strength and durability.
- Non-marking, low profile casters provide low clearance, meaning additional noise reduction and a lower centre of gravity for extra stability.
- Fully lockable 3 inch wheel castors are included on the full panel end members to lock and hold the sliding partition in position once set-up
- Velcro unit-to-unit connectors to join multiple units together to form longer lengths of partition
- Includes a unique transportation lock to hold it in the folded position while moving the partition from location to location.
- The stability of partition allows for hanging objects such as artwork, signage photos etc. Whiteboards can also be easily hung from the partition via simple optional hooks mounted along the top rail track of the panels
- Accessories such as light Flat Screen TV's and other presentation devices can also be attached via mounting brackets.

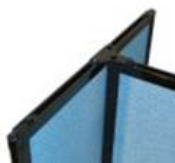

If you prefer this partition with a polycarbonate finish for improved waterproofing and cleaning attributes, check out our StraightWall Acoustic Partition Wall-Mountable (Polycarbonate)

For a non wall-mountable version of this partition, check out our StraightWall Acoustic Portable Partition (Fabric) or our StraightWall Acoustic Portable Partition (Polycarbonate)
