

Afford-A-Wall Folding Mobile Room Divider (Fabric)

Option to mix 'n' match fabric & polycarbonate panels

Product Features

Multiple Configurations
Patented 360 degree articulating hinges allow full rotation of each panel to allow easy manipulation and infinite configurations including zig-zag, L-shape, curved and straight line.

Sound Dampening
Engineered acoustic panels manufactured from a honeycomb cell core, fibreglass sheets on both sides and specialist acoustic fabric for superior acoustic performance.

Tackable Surface
Fully tackable surface accepts pins and Velcro for posting artwork or signage allowing you to create your own mobile gallery or display board.

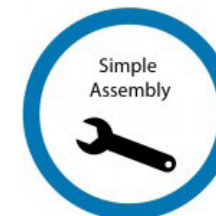

Customisable
Mix and match fabric colours and finishes (fabric and polycarbonate) to create your own unique product. Company logos and artwork can also be printed directly onto panels.

Easy Storage
Lightweight and easy to fold, move and store. Folds down to 85cm x 9cm for easy storage.

Safety First
Our patented no-pinch hinges reduce the possibility of fingers getting pinched.

Simple Assembly
Ships semi-assembled. Simply attach the support bases or wheels as desired and position into place.

Manufactured in Australia
Manufactured and assembled in our Sydney factory ensuring the highest quality.

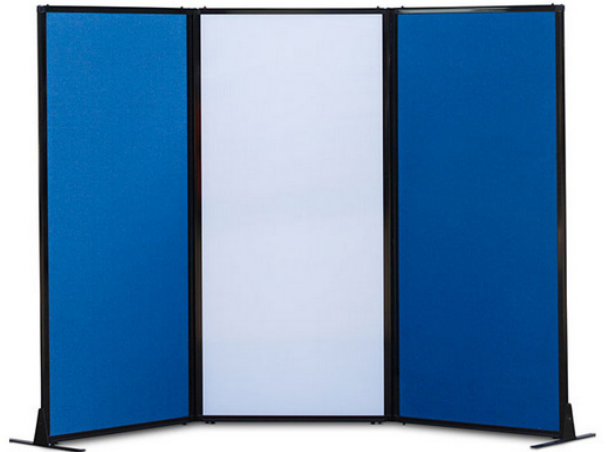

Product Gallery

An Afford-A-Wall used to create a mobile gallery within a school to display student artwork (blue fabric finish)

Creating a simple divide in reception waiting area within an office setting (charcoal fabric finish)

Mix 'n' match fabric and polycarbonate panels to create a custom look and finish (blue fabric/white polycarbonate combination)

Creating a temporary consultation booth within a pharmacy (charcoal fabric finish)

Lightweight and easy to fold, move and store

Product Description

- A simple 3-panel acoustic folding mobile room divider which can be positioned straight or in any non-linear shape such as zig-zag, curved and L-shape.
- Available in a length of 2.54m and three heights – 1.83m / 2.02m / 2.29m.
- Supplied with both support bases and wheels – you choose.
- Fibreglass panel construction offers enhanced, superior acoustics.
- The frame of the acoustic folding room divider is constructed of extruded lightweight aluminum profiles joined with cast aluminum corners joints for light weight strength and durability.
- Non-marking, low profile casters provide low clearance, meaning additional noise reduction and a lower centre of gravity for extra stability.
- Hang objects such as artwork, photos, whiteboards etc. over the top of the portable room divider to make mobile galleries, information walls or classrooms

If you prefer this room divider with an acoustic polycarbonate finish for improved waterproofing and cleaning attributes, check out our [Afford-A-Wall Folding Room Divider \(Polycarbonate\)](#)

If you prefer a straight line sliding divider, check out our [Afford-A-Wall Sliding Room Divider \(Fabric\)](#) or [Afford-A-Wall Sliding Room Divider \(Polycarbonate\)](#)

If you need a longer acoustic room divider, check out our [360 Acoustic Portable Room Divider \(Fabric\)](#) or [360 Acoustic Portable Room Divider \(Polycarbonate\)](#).
